Enjoy a beautiful garden with light

This Philips myGarden Sunset LED wall light in stainless steel adds style and strength to your wall. Slim, rounded, and with decorative cutaway details, it casts plenty of warm white LED light up and down for a stunning wall-washing effect.

Designed for your garden

- IP44 - weather proof

Sustainable light solutions

- High quality LED light
- Philips offers 5 year warranty on the LED module and driver
- Energy saving
- Warm white light
- Long operating life up to 20 years

PHILIPS

Highlights

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

5 year warranty on LED system

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

IP44 - weather proof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP44: it is protected against splashing water, this product is most common and ideal for general outdoor use.

Long operating life

A light source you can trust. The integrated LEDs, used in this Philips LED lamp, will last up to 20.000 hours (which equals 20 years on basis of an average use of 3 hours / day with an amount of at least of 13.000 on/off switching cycles). It feels so comfortable to think that you won't have to worry about maintenance or light bulb replacement while having the perfect light ambience in your home.

Specifications

Design and finishing

- Material: stainless steel, synthetics
- Color: inox

Extra feature/accessory incl.

- Weatherproof
- Bi-directional light beams
- 5 years warranty on the LED module
